

Partnerships for Better Agriculture

Multiple agencies in Kentucky offer programs and services for those involved in agriculture. Knowing where to send people for assistance and when to do so can play a role in the success of the commonwealth's farms. This **No-Cost** workshop will bring together various agencies that play a role in agriculture in the state. Leaders from these agencies will educate attendees on the services they provide and how they can be accessed and combined with other programs in order to better serve the agricultural community. See the [draft agenda](#).

What will be covered?

- Agencies that impact agriculture in Kentucky
- Accessing programs for optimum performance
- Resources for compliance

Frankfort

Wed., Oct. 14, 2015

Class Time: 9 a.m.-4:30p.m. CDT
